

Stay Safe and Get Medical Care in the Comfort of Your Home

Central Ohio Primary Care Physicians are Accepting New Patients

If you need medical help during this time, call our offices today.

Whether you are a new or existing patient of a COPC practice, we are committed to you and your health; it is very important at this time to limit your potential for exposure and maintain your routine visits with your physician. That's why we're encouraging our Medicare patients to explore telehealth and connect with their physician from the comfort and safety of your home.

All you need is a **smartphone, tablet or computer** with a camera, you can call our offices and we will get you set up to be seen for a wide variety of newly developed conditions, help managing your medications and follow up on previous visits to manage any chronic health challenges you may be facing.

Getting Set Up for Televisits

- When you contact the office, please have your most up-to-date email available.
- To review instructions on how to get set up, go to <https://www.copcp.com/televisits>.
- If you have attempted to become web enabled, but it is not working, call your doctor's office for individual help.
- You can also find instructions at <https://www.copcp.com/PatientPortal/Healow> to learn how to use our mobile app, Healow, for telemedicine once you are established in the patient portal. Healow allows you to participate in a telemedicine visit on your smartphone or tablet, seamlessly much like the feel of Facetime.

The Steps are as Easy as 1-2-3

- 1** Call your doctor's office first to schedule appointment and get set up. You will find a list of the locations and office numbers on the back of this sheet.
- 2** If you are not set up in your physician's health portal, you may do this over the phone.
- 3** Log in at your appointed time.

Please stay safe and remain healthy by using these practices. We recommend that you do not delay, but call our office today. Getting set up in advance for a televisit will ensure you have what you need as medical conditions arise.

 **CALL US TODAY!**
